

# A **FAST** AND **EFFECTIVE** SOLUTION AT AN **AFFORDABLE** PRICE

"The Solution" was designed for the builders, condominium and residential gutter protection market.

## **Installation Advantages of "The Solution" featuring our patent pending Fas-Connect™ system**

- Unique slope and ribbed design does not allow leaves and debris to collect on "The Solution".
- A double thickness of metal extending upward 5/8" at the gutter board and a double thickness of metal over the lip of the gutter, secured with screws, ensures a fast and secure installation.
- 1" over lap for fast and attractive installation.

## **Product Specifications**

### **2 Sizes to fit various gutter systems**
